The poster features a black and white photograph of Marie Curie in a laboratory, holding a flask. To her right is a large glass bottle with a stopper, labeled 'Marie Curie' in cursive. The text 'Marie Curie' is printed in a bold, sans-serif font on the left side of the image. Below the name, there is a large, stylized graphic of the word 'RADIIUM' in green and blue. The bottom of the poster contains a timeline of key events in Marie Curie's life, including her birth in 1867, her discovery of polonium and radium in 1898, and her death in 1934. The text is arranged in a grid-like format with small icons and dates.

Marie Curie
